Retiree Wellness Spotlight | Cancer Awareness and Prevention for Retirees

Staying informed

As we journey through retirement, prioritizing our health becomes more important than ever. One key area to focus on is **cancer awareness**. With most cancer diagnoses occurring in individuals over 60, understanding the risks, symptoms, and preventive measures is essential.

Why it matters

Cancer is a group of diseases that can affect nearly any part of the body. Early detection and healthy lifestyle choices can significantly improve outcomes. Awareness empowers us to take control of our health and seek timely care.

Common cancers in older adults

- Breast cancer
- Prostate cancer
- Colorectal cancer
- Lung cancer
- Skin cancer

Knowing the symptoms and getting regular screenings can help catch these early.

Prevention tips

- Stay active: Aim for regular movement walking, swimming or yoga.
- Eat smart: Choose fruits, vegetables, lean proteins and whole grains
- Avoid tobacco and limit alcohol: These are major risk factors.
- Get screened: Talk to your doctor about age-appropriate screenings.
- Protect your skin: Use sunscreen and wear protective clothing outdoors.

Support and resources

- American Cancer Society: Offers education, support groups, and local resources.
- Medicare: Covers many cancer screenings and treatments.
- Local Senior Centers: Host wellness talks and peer support groups.

The information in this article is intended to provide guidance about the retiree benefit plans presently sponsored by Lumen Technologies, Inc. and doesn't waive any reserved rights the company has with regard to the plans for their benefits, nor does this affect the terms of the written agreement specific to Legacy Qwest Pre-1991 and Legacy Qwest ERO'92 retirees. If there is any difference between the information in this article and the terms of the official plan documents, the terms of the official plan documents will govern. If you have any questions regarding your benefits, please consult the Annual Enrollment Summary of Material Modifications (SMM), the Summary Plan Description and prior SMM's, or call the claims administrator for the plan or the Service Center directly.

Awareness months to remember

- February: National Cancer prevention month
- October: Breast Cancer Awareness month

Use these months as reminders to schedule checkups, attend educational events or support cancer-related causes.

∵ Your health, your power

Whether you're newly retired or well into your golden years, staying informed and proactive about cancer can lead to healthier, more fulfilling days ahead. Share this article with friends and loved ones—it could make a life-saving difference.
